for

SHERRILL FURNITURE

FABRIC CATALOG

JANUARY 2020

GENERAL INFORMATION

- (1) **RAFT: It has been determined by the Joint Industry Fabric Standards Committee that various fabric treatment processes are detrimental to the performance of fabrics. Therefore, neither Sherrill Furniture Company nor the fabric mill can be responsible for any claims made involving fabrics that have Retail Applied Fabric Treatment.**
- (2) **The manufacturers of upholstered fabrics do not guarantee their products for wearability or colorfastness; whether "Teflon" treated or not; therefore, we cannot assume this responsibility. We also cannot guarantee match in color items ordered at separate times because of dye lot variations.**
- (3) We do not in any way guarantee that Teflon finish will definitely improve cleaning quality of fabrics.
- (4) We buy the best quality covers available in each grade, consistent with the present day styles, and cannot guarantee fabric for cleanability, fastness of color, or wearing quality.
- (5) Special features of each (content, repeats, etc.) are listed directly under the pattern colors.
- (6) All current fabrics are 54 inches wide unless otherwise noted.
- (7) When "Railroaded" is noted on the list, this denotes that the fabric is shown railroaded in swatches and on furniture.
- (8) **FABRICS WOVEN RAILROADED ARE NOT RECOMMENDED FOR DRAPERIES.**

Cleanability Code Information

The following recommended cleaning codes are devised as the results of tests made by the fabric manufacturers having adhered to the methods requested by the Joint Industry Upholstery Standards Committee. They in no way intend to imply that we are in any way guaranteeing these fabrics or the cleanability thereof.

"W"

Clean this fabric with the foam only of a water-based cleaning agent to remove overall soil. Many household cleaning solvents are harmful to the color and life of the fabric. Cleaning by a professional furniture cleaning service only is recommended. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

"S"

Clean this fabric with pure solvents (petroleum distillate-based products, Energine, Carbona, or similar products may be used) in a well ventilated room. Cleaning by a professional furniture cleaning service only is recommended. Caution: Water stains may become permanent and unable to be removed with solvent cleaning agents. Avoid products containing Carbon Tetrachloride, as it is highly toxic. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

"SW"

Clean this fabric with the foam only of a water-based cleaning agent or with a pure solvent in a well ventilated room (petroleum distillate-based products, Energine, Carbona, or similar products may be used). Cleaning by a professional furniture cleaning service is recommended. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

"X"

Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust or grime. Water-based foam or solvent based cleaning agents of any kind may cause excessive shrinking or fading.

The cleaning codes appear in the fabric list for each fabric designated by "Cleanability", followed by the proper letter for the suggested cleaning process.

Fabric enclosed with Brackets indicates new fabrics added at October Market:

Example:

Delmar Gr. 12
