CUSTOM FINISH OPTIONS

Overview: Finishes vary in material requirements, application time and degree of difficulty. The complexity of the finish determines the designated category. Each item has a predetermined level of distressing. The wood species used to construct an item and the level of distressing shall remain constant, regardless of the finish selected.

Note: Due to the inherent difficulties of working within confined spaces of cabinet interiors, an interior finish will include all finishing steps except secondary detailing such as spatter, cow-tailing, hand-padding and texturing.

Within this Finish selection there are three levels of finishes varying in application time and difficulty. The complexity of the finish is reflected in the terms Standard, Premium, and Artisan.

Specialty Finishes: In addition to the SELECTED and OPTIONAL finishes listed here, some items may be ordered in a SPECIALTY FINISH designed specifically for that item. These SPECIALTY FINISHES are available only on the items listed below their respective finish panels

Combination Finishes: Many items may be ordered in a two-tone combination finish. The suffix code for combination finishes is -00 followed by the desired finish codes and names along with the areas of application and a sketch if needed.

Upholstery: SOHO is the SELECTED finish for all Mr. & Mrs. Howard upholstered pieces unless otherwise noted in the price list. It is the selected finish for all fully upholstered frames and will be applied to exposed wood special orders unless an alternate custom finish is specified.

Color Match Program (available only on casegoods): Add your favorite paint color to our furniture with Color Match. With thousands of colors to choose from, it has never been easier to incorporate your unique style.

The suffix code for a Color Match item is -CM. Color Match items are priced at the Premium level. To Color Match an item, simply provide us with the Paint Company, Paint Name and Number, and attach a finish chip to your purchase order.

STRIPING

Many items lend themselves to hand-stripping applications which can enhance the design and customize the piece to one's individual taste. Striping patterns are predetermined by the factory. Special striping pattern requests may be submitted for approval and may require a sketch and additional charges if deemed necessary.
